Voice Control Setup Instructions

1. First ensure you have the Amazon Alexa, Google Home or Google Assistant Apps setup on your device.

2. On your Capa Connect App go to the settings icon in the bottom right hand corner.

3. Select the “Voice setup” option from the list.

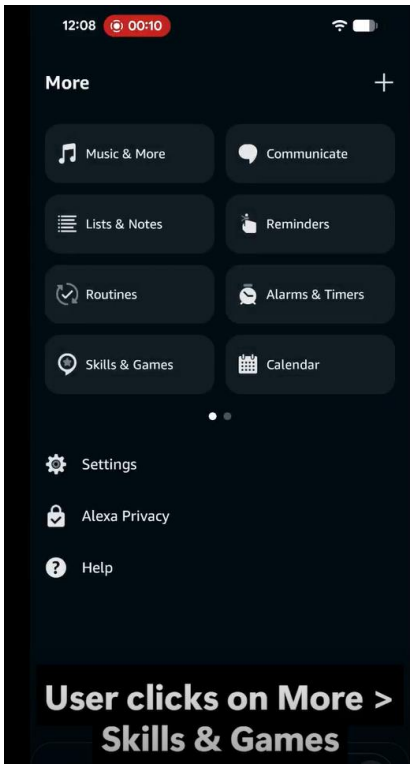

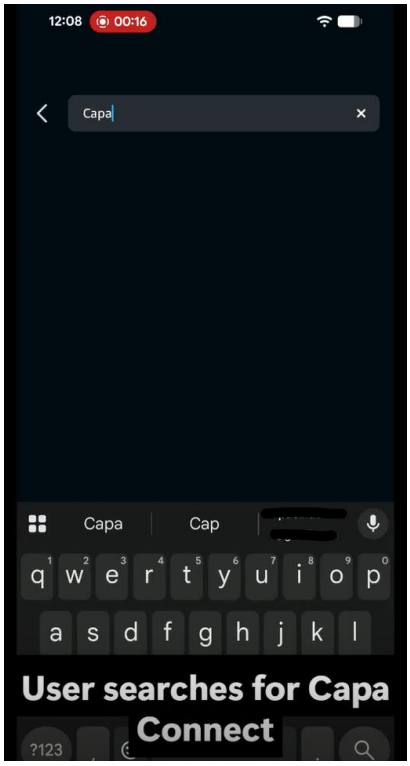

4. Choose either “Link with Amazon Alexa” or “Link with Google Home”. This will open Amazon or Google Home App on your device.

Alexa Setup Instructions

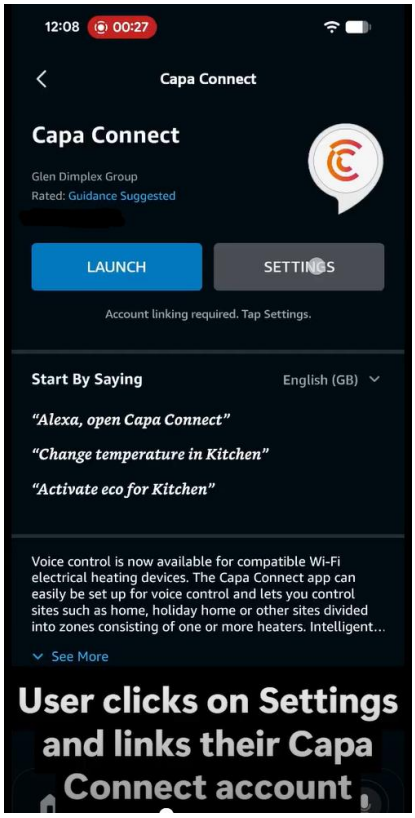

“Link with Amazon Alexa” will open the Amazon App.

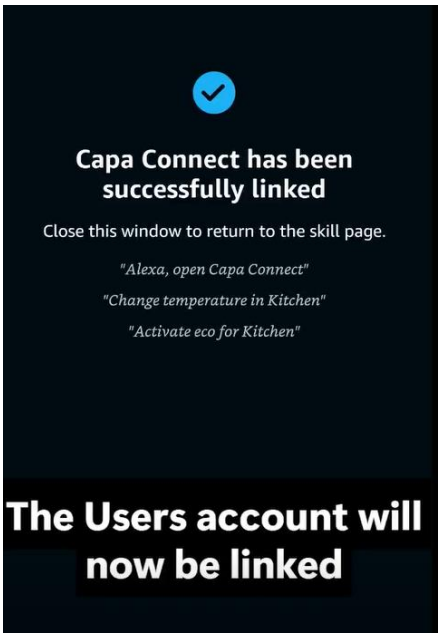

The user clicks on “More” and then “Skills and Games”

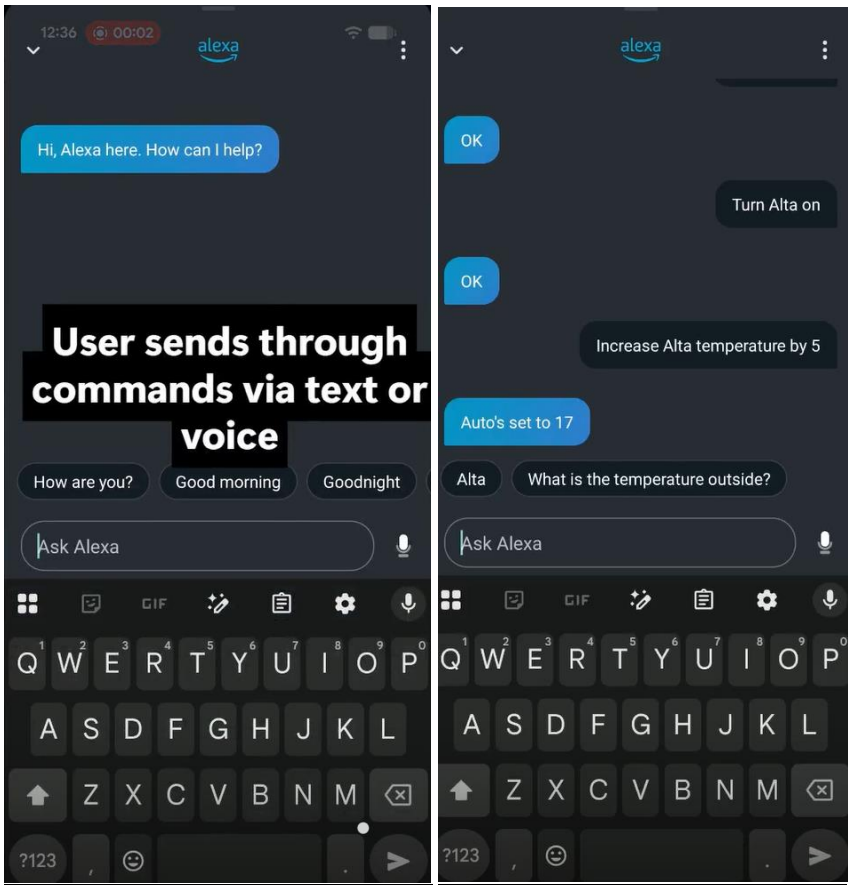

Now search for Capa Connect in Skills, when the Skill loads click on settings and link your Capa Connect account.

Once linked the User can send commands via text or voice.

Google Home Setup Instructions

"Link with Google Home" will open the Google Home App

"Link with Google Home" is a similar process to Alexa. Ensure you have created a Home in Google Home.

Note. Google Home sometimes defaults to temperatures in Fahrenheit, so increasing a temperature by 8 degrees may be Fahrenheit rather than Centigrade. It is possible to change the default temperature settings in Google Home to Centigrade.
